

# Kaleidos Wall Lighting

## Instruction manual

Thank you for purchasing our product.

Kaleidos lighting gives your living or work space a beautiful lace like effect on the walls.

You can instantly create a different atmosphere by using the remote to control to change the brightness and colour at the touch of a button.

The Kaleidos lighting solution is unique, innovative and will make any area sparkle with light.

Kaleidos light fittings can easily be placed horizontally or vertically in any area of your space giving you the effect you require. You can place them singly or in any pattern creating a wonderful atmosphere and colour.

Due to the low voltage of these lights they are safe and energy saving, giving an ambient light in areas where you need it.

Made in England you have access to excellent customer service and high standards of design and manufacture.
